

Drive growth with LoanPro

Delivering ROI for automotive lenders

Auto lending is complex, but LoanPro simplifies it by turning manual, error-prone processes into efficient, scalable operations. With native tools and automations, LoanPro helps you maximize returns on your loans, leases, and lines of credit—at every stage of the credit lifecycle.

How LoanPro powers auto lending

LoanPro optimizes the entire credit lifecycle with tools for underwriting onwards.

Automated KYC

Connect to third-party data sources for instant identity verification.

Dynamic contract templates

Generate personalized contracts in seconds for faster closings.

Efficient servicing and collections

Stand up hardship programs and deliver real-time communications.

Built-in compliance

Prevent costly errors with automated, state-specific checks.

Direct RDN access

Initiate repossessions and update account statuses using the RDN integration.

Borrower self-service

Manage payments, view account details, and upload documents through an online portal.

Collateral and insurance tracking

Reduce repossession costs and credit risk with native tools.

Re-origination

Offer advancements and additional loans for repairs or upgrades.

Value delivered by LoanPro

We understand the unique challenges that automotive lenders face and have firsthand experience overcoming them, delivering results like those achieved by our current customers:

300%

increase in their
loan-to-agent ratio

Best Egg

10x

increase their agent efficiency
Modern Asset Management

98%

Decrease in time
spent on reporting

SunCity

50%

decrease in credit losses
within one year

Octane

70%

Reduction in agent turnover
Best Egg

4 weeks

to launch a new product and
scale it to 100,000 apps

Leading Neobank

It's good to have a strong partner in LoanPro that focuses on technology and building an infrastructure platform. We get more leverage out of having a partnership than building something internally.
